

Introducing our new product

FLOJET PUMPS

Xylem Flojet diaphragm pumps can be found in applications such as spraying, misting, carpet cleaning, water systems, chemical transfer, car wash and many other unique functions. Diaphragm pumps tend to be more robust as they can run dry for extended periods and do not need a shaft seal, so there is less maintenance. Xylem Flojet diaphragm pumps come in two ranges — air/gas powered and electrically powered. Air/gas powered diaphragm pumps offer great life and superb flow with a small footprint. Electric diaphragm pumps are compact and have a huge range of options for wetted materials, voltage, pressure switch setting and flow. Diaphragm pumps must be used with a coarse strainer to avoid blocking the check valves.

101-FJLFP122202A
Flojet Single Piston 12v, 3.8 l/min, 35 psi Pump

101-FJ04406143A
Flojet Quad 12v, 12.5 l/min, 35 psi Pump

101-FJR3526144D
Flojet Triplex 12v, 11 l/min, 50 psi Pump

101-FJR3521349A
Flojet Triplex 24v, 15 l/min, 4015 l/min, 40 psi
